

Amendments to Senate Bill No. 103  
1st Reading Copy

Requested by Senator Verdell Jackson

For the Senate Natural Resources Committee

Prepared by Joe Kolman  
January 13, 2011 (8:16am)

1. Title, line 5.

**Following:** "USE IN"

**Insert:** "CERTAIN"

2. Page 2, line 5 through line 6.

**Strike:** "for use in heating or cooling" on line 5 through "stream conditions" on line 6

**Insert:** "with a maximum appropriation of 500 gallons a minute or less for use in nonconsumptive geothermal heating or cooling exchange applications where all the water extracted is returned without delay to the same source aquifer and where the distance between the extraction well and hydraulically connected surface waters is more than twice the distance between the extraction well and the injection well"
